

Martin Kolenc zase pravi, da mu čebele predstavljajo veliko ljubezen in sprostitvev po napornem delu v službi. Poleg skrbi za svoje čebele aktivno pomaga pri razvoju čebelarstva nasploh in pri delu Čebelarškega društva Idrija, kjer je zadnjih nekaj let predsednik. V svoji ponudbi ima različne vrste medu: cvetličnega, gozdnega, akacijevega, lipovega in hojevega.

Martin Kolenc says that bees are his great love and provide a much-needed relaxation after a hard day at work. While taking care of his own bees, he is also active in developing beekeeping, not least at the Idrija Beekeeping Association the president of which he has been for the past few years. His offer includes various honeys: flower, forest, acacia, linden and fir.

Lipov med
Linden honey

Izvrsten med z znakom geografskega porekla »slovenski med« z območja Geoparka Idrija. Z značilno svežo aromo in vonjem po lipovem cvetju.

Excellent honey with the Slovenski med (Slovenian honey) geographical designation from the Idrija Geopark area. It features a typical fresh aroma and a scent of linden flowers.

Cvetlični med
Flower honey

Izvrsten med z znakom geografskega porekla »slovenski med«, ki so ga čebele nabrale na travnikih, pašnikih in v sadovnjakih Geoparka Idrija.

Excellent honey with the Slovenski med (Slovenian honey) geographical designation from the Idrija Geopark area. Collected by bees on the meadows, pastures, and orchards of the Idrija Geopark.
