Idrijska čipka v obroču – Perkmandlc Idrija lace in frame – Perkmandlc

Navdih za njen izdelek je rudniški škrat Perkmandlc, ki je našel svoje mesto tudi v klekljani čipki. Čipka je izdelana po predlogi risbe akademskega slikarja Jurija Pfeiferja.

The inspiration for this product is the mine elf Perkmandlc brought to life in bobbin lace. The design follows the sketch by the academic painter Jurij Pfeifer.
